

pinklemonadeproject®

Today, 1 in 8 women will develop breast cancer in her lifetime, and men will get breast cancer too. In the Pacific Northwest, 1 in 7 women will be diagnosed.

With education, mammography, financial assistance, strong support and relationships/ community connections, research shows that survival rates increase, recurrences are lower and lives are saved.

That's where Pink Lemonade Project comes in, offering programs and services to support patients and families before, during and after treatment. Pink Lemonade Project is here for you!

Turn your street pink!

Order a Pink Cart for yourself or someone else.
With a \$100 donation, Waste Connections will deliver it.
Clark County residents only.

Educate, empower, and support all communities affected by breast cancer in SW Washington and all of Oregon

pinklemonadeproject.org

support

revive retreats

The earliest program of Pink Lemonade Project, retreats are led by oncology social workers who provide guidance and counseling to couples and individuals and patients with breast cancer in a relaxing atmosphere. The weekends offer reflection on the impact of cancer, time to experience renewal and share encouragement.

pink peers™

Pink Peers is a one-on-one mentorship program. Mentors are breast cancer survivors trained by oncology social workers to provide support to breast cancer patients. By building a nurturing relationship, mentors provide encouragement, experience and knowledge with patients along their cancer journey. *Expanded to all Oregon residents.*

support groups

Peer-to-peer support groups (Zest, Limoncello and MBC Support Socials) are offered and led by trained survivor volunteers. And in partnership with local oncology social workers, clinical support groups include All Women's Cancers, Advanced/Metastatic Cancer, and Grupo de Apoyo - Cáncer de mama (Spanish speaking). All support groups provide an opportunity to talk with and learn from others who are facing similar experiences in a safe, welcoming environment.

empower

pink practicalities™

We've got you covered

Pink Practicalities is a financial assistance program for patients experiencing hardship during breast cancer treatment. The program provides food, utilities, supplements, wigs and more. Patients apply through their healthcare provider. *Program only available in Vancouver and Portland metro area.*

treatment access™ program

Powered by Toni Mountain Fund

The Treatment Access Program offers financial assistance to underserved breast cancer patients during treatment (gas, transportation, food and lodging). Patients apply through their healthcare provider. *Serves rural communities—25 miles or more one way from treatment.*

Holiday Glow

Many breast cancer patients experience financial and physical difficulties during the holidays. Holiday Glow provides gifts and financial assistance to individuals/families, bringing light, comfort and care. *Applications accepted only November—early December. Program only available in Vancouver and Portland metro area.*

educate

A program that provides educational discussions with experts (health/wellness topics, workplace subjects, medical topics, etc.) and fitness meetups (walks and yoga) for patients during treatment, recovery and beyond. The program offers a chance to connect with others along the breast cancer journey. *Discussions are in a virtual format.*

mammogram assistance

With local healthcare partners, screening and diagnostic mammogram events are available for eligible women and men.

The Metastatic Breast Cancer Dinner Series is a quarterly program for those living with advanced breast cancer. These events include topics (latest in research, treatment, nutrition and symptom management, and more) with local health experts and offer a chance to connect with others who share a similar diagnosis.
