

## Note from the CEO A Spring in Our Step!

Spring has almost sprung! I share my heartfelt gratitude to you—our donors, healthcare partners, volunteers, board of directors and expanded staff at Pink Lemonade Project.

Together, we continue to educate, empower, and support new breast cancer communities with our heralded programs and services across 42 counties in SW Washington and Oregon.

Pink Lemonade Project programs, services and events are in full swing and we have an exciting year of events planned for our screening, educational, mentor and Retreat Series, and more around SW Washington and Oregon. See below for the details of many upcoming events and programs.

We recently held our Donor Appreciation & Volunteer Event to recognize special individuals and groups, share the impact of your support in our work and say thank you for your commitment to our collective efforts and growth over the past year.

On the program front, we listened to our community and are actively recruiting new mentors—especially from BIPOC communities and those living with metastatic breast cancer. We want to connect more patients with mentors who have had similar breast cancer experiences this year. Second, four Revive Retreats are slated for the year. Third, our Pink Link Walks are back in action and where community comes together to support one another and be active and outdoors.

Don't forget to purchase a table or seats for the upcoming 2023 Pink Glow Gala, THE party with a purpose. Planning is well under way for Saturday, May 20th at ilani Casino and Resort. And, yes, you can come and stay overnight at the new hotel!

Your vote of confidence in us allows us to serve even more individuals and families affected by breast cancer. Thank you for your partnership, passion and generosity!

With gratitude,
